

Let Go

Paul van Dyk

I'm falling apart...
Falling in time...

I can't get it out of me
It's breathing inside of me
It's reaching in side of you
You're feeling infected
You've been infected
It's just like a cold
A kiss on your lips
Now you're taking control
I feel like a criminal
I'm falling apart
I'm leaving for Venus
In a getaway car
No one can save us
It's no need to try
I'm looking for savers
Holding us back

If you wanna try and save me
And take my heart and take me

If you feel you can let go let it go...
(2x)

I feel like a criminal
I'm falling apart
I'm leaving for Venus
In a getaway car
You say that you hold me
But you don't really no
You're clinging to fingers
But you got to let go

If you wanna try and save me
And take my heart and take me
If you feel you can let go let it go...
(2x)
Let go, let go, let go, let go...

If you wanna try and save me
And take my heart and take me
If you feel you can let go let it go...
