

# Lost In Berlin

Paul van Dyk

Lo lo lo-lo-lo-lo-lo... [repeats]

Let us get lost

Let us get lost

Let us get lost

Let us get

Hating my own shadow,

Living on what was borrowed

Nothing was mine, nothing felt right, living their lives

You we're as lonely as I was

We knew there was so much for us

That what we'd lost, more than what we had, more than a lot

Come and take my hand, there are no demands,

I am insecure knocking on your door

Let us get lost in Berlin

Tonight

As we're falling into the 4th bar

Watch us get lost in Berlin

Racing lights

Everything's alright even

If tomorrow changes it's mind

If tomorrow changes it's mind

Let us get lost in Berlin

Let us get lost

Let us get lost in Berlin

Let us get lost in Berlin

Let us get lost in Berlin
