

## Talk in Grey

Paul van Dyk

Missin' the train  
Movin' the days around

These moments in time  
Always the change of hands that takes you out

When everything is sinking to the top  
And something's got you lookin' till you see you're blind  
You know that I would try my best to say

If I could talk in grey  
I wouldn't see your face at all  
If I could talk in grey (2x)

Live in the night  
Mumble the days aloud

A questions of rights  
Things that we left around until they crawl inside

And make you wanna fall across the lines  
When everything is soundin' like a battle cry  
No promises are good enough to take

If I could talk in grey  
I wouldn't see your face at all  
If I could talk in grey (2x)
