

That's Life

Paul van Dyk

Life isn't made so everything is right
Life isn't made so everything is right
Life isn't made so it's always alright

But that is alright

Life isn't made what you have in mind
Life will not always be too kind
Sometimes you wonder what's really behind

What's really behind

But that is alright

Life isn't made so everything is right
Life isn't made so everything is right
Life isn't made so it's always alright

But that is alright

Life isn't made what you have in mind
Life will not always be too kind
Sometimes you wonder what's really behind

What's really behind

But that is alright

Life isn't made so everything is right
Life isn't made so everything is right
Life isn't made so it's always alright

But that is alright

Life isn't made what you have in mind
Life will not always be too kind
Sometimes you wonder what's really behind

What's really behind

Sometimes you wonder what's really behind

What's really behind

But that is alright
