

We Come Together

Paul van Dyk

It begins a single road
Up ahead are many turns
Every curve it brings me hope
Every mile you live and learn

Many paths are crossing over
Passengers along the way
We're the spark until the forces
Come together
Makes a flame

Side by side
Strong as stone
We all walk on
Together
Side by side
Unite as one
We are one voice
Together

United we stand
Divided we won't fall
But when we get the call
We come together

Side by side
Strong as stone
On and on
On and on
