All Year Round

Our eyes meet across the floor We don't have to say much more Lets take a chance on it Say you'll be mine till Spring We kiss on crowded streets We kiss everytime we meet Who knows how it will go Stay here till summer comes

I love you more each day God sends Love you because you are my friend Oh, don't say our luck has blown Oh stick with it till autumn goes

Lets make love in the light Sleep together every night Oh, with dark days all about Oh, lets stay together, see the winter out **Paul Weller**
