

## One Bright Star

Paul Weller

I only want you, I only want you  
You're the one bright star in my eyes  
I only need you, I only need you  
You're the one bright star, shine for me

Without you I feel nothing  
My one bright star shine for me

I only love you, I only love you  
You're the one bright star in my life  
I only need you, I only need you  
You're the one bright star, shine for me

Without you I feel nothing  
My one bright star shine for me
