## The Attic

## **Paul Weller**

Taken by the sun's glare I could no longer see It clear

All day long I'm lonely Waiting by the phone dear To call - Baby come home

Round and round I go Lounging round this town y'know

Hanging by this wall on show
But what it shows - I just don't know

Round and round I go Lounging round this town y'know

Hanging by this wall on show But what it shows - I just don't know

I fall into the ashes
And crash back through the attic
At home - baby come home

Waiting for you only Waiting for you only
