

Love You In The Fall

Paul Westerberg

I love you in the fall
I'll never forget you at all
I love you in the fall
I'll never forget you at all

I wait for always
I love you in the fall
I'll never forget you
The winter's coming on.

Seasons change before me
Before me there must have
Been someone else.
Oh, yeah.

I wait for always
I love you in the fall
I love you forever.

Season change before me
After me there'll be someone new,
Someone new.
...? ..shadows of the summer time
When the crimson leaves appear
It's only days till autumn's here.

I love you forever
I love you in the fall
I love you forever
I love you in the fall
I love you forever
I love you in the fall

I'll never forget you
I'll never forget you
I'll never foregt you
I'll never forget you-- no no
I'll never forget you.
