

## Grazing In The Grass

Paul Young

Sure these melodies are in the grass  
Wanna trip just watching as the world goes by  
They're so many good places to see while  
We're grazing in the grass  
Colours bright colours bright making everything out of  
The sight in the grass  
Sun beaming down between the leaves  
And the birds darling in and out of the trees  
Everything here is so clear you can see it  
Everything here is so real you can feel it  
And it's real so real so real  
Can you dig it  
Let's dig it  
Can you dig it  
In the grass  
It's so real  
In the grass it's a gas  
Sun beaming down between the leaves  
And the birds darling in and out of the trees  
Everything here is so clear you can see it  
Everything here is so real you can feel it  
And it's real so real so real  
Can you dig it  
Let's dig it  
Can you dig it  
In the grass  
It's so real
