

# I Need You

Paula Abdul

All alone, it's you and me  
Time to tell you now just how I feel  
Babe to you I bare my heart  
A light of love, here in the dark

(Don'cha know) I might be strong  
But deep down there's a sweetness  
Only you can touch and make me feel

(Oh h h) what a joy  
You're such a perfect lover yes  
You always know just what to do

I--I I need you...  
At the start, I couldn't say  
All my feelings I could not portray  
But I gotta tell ya now,  
That I really need your love, babe

Oh, it's comin' on strong  
(I feel) so secure  
When you are here beside me  
There is nothin' that can bring me down  
(Oh and) more and more  
You take me way up high, babe  
And you teach me what love is all about

I--I I need you.
