

I Never Knew It

Paula Abdul

Now you tell me since you've been away
There was something you've been dying to say
Yes, I thought you had eyes for me
But I never was quite sure
Mighty funny that you never called
Ain't it funny now that you're gone
That you say you're in love with me

Now that's hard for me to believe
Cause I never knew it baby, never knew it baby
I never knew it baby, never knew it baby
That you loved me so
Now I think about you every night
Said you wanted for us to have fun
What's the matter, cat got your tongue
It's not easy to read your mind

So you bet not take too long
Kind of silly just holding the phone
Ain't it silly that I'm all alone
When you should be here holding me
Or making good love baby, oh so sweet

I knew somebody would love me
And satisfy this heart of mine
You never should keep it from me
You gotta realize a girl would cry and lose her mind...
