

# Knocked Out

Paula Abdul

I was in love the moment that I saw you  
I followed you thru the crowd and I almost lost you  
I was dying to tell you but scared of your reaction  
But I can't hold back because I'm rushed with thing called passion

You've got me knocked out turn me inside out  
It's you that makes my heart beat  
You've got me knocked out  
Baby there's no doubt  
You swept me off of my feet

I walked your way hoping that  
Maybe you noticed  
I don't want to move so fast  
I don't want to blow it

Never did I think love could be so amazing  
But the things that you're making me do  
It's driving me crazy

I want us to be closer, boy I wanna be  
Startin' somethin with you baby  
My heart is steady knockin boy you've got my body rockin', caught  
blow-by-blow, love T.K.O.
