

# Love Don't Come Easy

Paula Abdul

It all went down at the cantina that she liked  
Everyone would watch her as she danced all through the lights  
She was the center of attraction in his mind  
Maria thought she'd never find a man worth her time

Oooo he came into the room  
Oooo she really liked the way that he began to move  
They were in the mood for romancin'

There's a fire in little Havana  
Flame so hot you can't stand it  
Things are getting a little crazy  
Someone better tell them that

Love don't come that easy  
(I know you're ready boy)  
We've got to control all emotions that we're feeling  
Love don't come that easy  
We've gotta be strong -- swing  
We've gotta stay strong -- straight

As he took her in his arms  
She got an instant chill  
A sense of passion  
She thought no one could make her feel  
Their bodies moved with such intensity  
The lights went down  
Made sighs of pleasure  
Like there was no one else around

Ooh now she's in the mood  
Ooh to show him what she wants to do  
She's got him crazy  
There's a fire in little Havana  
Flame so hot ya can't stand it  
Thing's are gettin' a little crazy  
Can you feel it -- ooh  
Are you ready -- ooh

Love don't come that easy  
(I know you're ready boy)  
We've got to control all emotions that we're feeling  
Love don't come that easy  
We've gotta be strong -- swing  
We've gotta stay strong -- straight
