

Sexy Thoughts

Paula Abdul

Day or night it's the way of life
Whatever keeps me pumpin'
Whatever makes me feel alright
Well I've been tryin' to find myself
I was in a trance but now I feel like dancin'
Put on your platforms, get your move on
Won't flow to nothin' I don't like
My vibe is mental, it's never gentle
You gotta do your own thing move it side to side
Now if you love yourself, throw your hands in the air
And if you think you're sexy
Clap your hands like you just don't care
All you gotta do
Sexy things
Is be a little sexy
Bring sexy thoughts
All you gotta do
Sexy thoughts, SEX
Is be a little sexy
I got an attitude
I got a complex
I'm feeling funky, I bet'cha knew that
When you saw me
You thought you could take me to another place
But I ain't hip to that
I ain't with that
Here come the spotlights
I gotta get mine, so move that body
If you ain't got it
It's all about strength, poise, so make some noise
You don't have to let nobody know
How you're gonna steal the show
Now if you love yourself, throw your hands in the air
And if you think you're sexy
Clap your hands like you just don't care
