

# I Believe in Love

Paula Cole

It all started nine years ago  
You sat to my left back in school  
The future showed itself to me  
The God in you, the God in me  
Stood together like two trees

I was so shy to inquire  
If you would like tea sometime  
But then in my Mercury  
Hand on hand, hand on knee, mercy, mercy, mercy me  
Hand on hand, hand on knee, mercy, mercy

And I believe in love to be the center of all things  
And I believe in love to be the way  
And I believe in love to be the center of all things  
And I believe in love to be the way  
To find our inner light

I saw a vision where we  
Were opening presents Christmas Day  
But we were not all alone  
The wedding was shotgun  
We had a daughter and a son

So how cruel to realize  
You had a woman all the time, umm hmm  
My love burns bright as the sun  
The clouds may come, the clouds may go  
And I'll still be here at your door  
The clouds may come, the clouds may go  
And I'll still be here

And I believe in love to be the center of all things  
And I believe in love to be the way  
And I believe in love to be the center of all things  
And I believe in love to be the way

Thank you for waiting through my lovers  
Knowing we could come home to each other  
Yes, I have waited through these winters  
My true love was waiting here, yeah

And I believe in love to be the center of all things  
And I believe in love to be the way  
And I believe in love to be the center of all things  
And I believe in love to be the way

And I believe in love, love, love, I believe in love  
I'll go on lovin', I'll go on lovin', I believe in love  
Love yes love, love, I believe in love  
And I believe in love, love, love, yeah yeah  
Love, love, love
