

# Let's Go Out Tonight

Paula DeAnda

Boy, you know I'm feeling you  
And what you're saying is so true  
I know you see my shining now  
My style is super fine  
Ooh, well it's all left behind

Ooh  
Let's go out tonight  
We're gonna celebrate 'cause the feel is right  
Let's go out tonight  
Tonight, 'cause I take what I have to to make it  
Let's go out tonight  
Boy, you look really good like you're my boo  
Let's go out tonight  
Get the cab, drive a car, get away, ain't no way stopping

There's things to think  
Another side of me  
There's a whole other side of me  
'Cause I play my tools to get up and get out  
I've been waiting around

Let's go out tonight  
We're gonna celebrate 'cause the feel is right  
Let's go out tonight Tonight, 'cause I take what I have to to make it  
Let's go out tonight  
Boy, you look really good like you're my boo  
Let's go out tonight  
Get the cab, drive a car, get away, ain't no way stopping

Now listen up, shorty  
I'm here to do something  
They gonna talk, they gonna blame  
They gonna put it in your name  
No more hop-scotch, pink and purple pola dots  
The black top  
Slide in the Jaguar  
You the driver, not a bike rider  
Push button, loose cracks, saying through the visor  
Um, tell them hello, hello  
Then goodbye, goodbye  
Hold up, now they wanna carpool  
She used a brown bag  
Now she carrying plastic  
Get that money young woman  
That's a game drastic  
This, here's a classic  
Playa baby, holla baby  
They tell me to go very  
Finally they can jammy  
Beat this miss, chubby late-tress  
Grant your wish  
Perfection, please don't take your list  
Please list your trick  
It don't matter how just get  
Rich, rich, rich, rich, rich

Oh, no, no, ah  
Let's go out tonight  
Get the cab, drive a car, get away, ain't no way stopping

Let's go out tonight  
We're gonna celebrate 'cause the feel is right  
Let's go out tonight  
Tonight, 'cause I take what I have to to make it (ooh, ooh, no, no, no)  
Let's go out tonight  
Boy, you look really good like you're my boo  
Let's go out tonight  
Get the cab, drive a car, get away, ain't no way stopping
