

# Stereo

Paulina Rubio

It's very clear to me, just like it's in 3d  
When total empathy sounds like it's ringing on my stereo  
I'm bouncing off the wall, the way you turn me on  
I think I like this song, sounds like it's ringing on my stereo

Deep in the scene, like the music getting fascinating  
Touching the screen, like the view from my imagination  
Ninety degrees, got me circulating  
I've been waiting, Impatiently  
Got me changing stations on occasion

What's your frequency?  
Can you connect with me?  
If it's alright your satellite can be my energy

Don't wanna be too bizarre but you're the key to my heart  
You're my electric guitar, sounds like it's ringing on my stereo  
It's very clear to me, just like it's in 3d  
When total empathy sounds like it's ringing on my stereo  
I'm bouncing off the wall, the way you turn me on  
I think I like this song, sounds like it's ringing on my stereo

Survive the people's faces, they're dancing from temptation  
Her icky style is wasted, you don't need no invitation  
Hey there cutey boys  
Making all the noise  
It's getting hard up in here  
You don't have a choice

What's your frequency?  
Can you connect with me?  
If it's alright your satellite can be my energy

Don't wanna be too bizarre but you're the key to my heart  
You're my electric guitar, sounds like it's ringing on my stereo  
It's very clear to me, just like it's in 3d

[Pretty Willie's Rap]  
Oooohhh, Heeeey, Ooooh

It's very clear to me, just like it's in 3d  
When total empathy sounds like it's ringing on my stereo  
I'm bouncing off the wall, the way you turn me on  
I think I like this song, sounds like it's ringing on my stereo
