

## Angel Carver Blues/Mellow Jazz Docent

Pavement

When they fall in  
They fall in from the roof  
They grab on to me tightly  
As if I knew the way  
When I fight for something  
I fight because I care  
When I fight with you  
I fight but I don't care

Everybody wants the questions to be asked  
The questions are the answers  
To questions in themselves  
Ask me if I really need it  
Ask me if you want to get hit  
Hit it

Ask me if you want to be...fucked.
