

Angel Carver Blues/Mellow Jazz Docent

Pavement

When they fall in
They fall in from the roof
They grab on to me tightly
As if I knew the way
When I fight for something
I fight because I care
When I fight with you
I fight but I don't care

Everybody wants the questions to be asked
The questions are the answers
To questions in themselves
Ask me if I really need it
Ask me if you want to get hit
Hit it

Ask me if you want to be...fucked.
