

# Haunt You Down

Pavement

I got a leaf  
And a spleef  
Light that spleef  
God bless that spleef in my mouth  
Or should I say ja baby  
Spin Doctors are crazy  
Take it Butch  
I got a life complete with my love  
I got a wife, she fits in my leather gloves  
I got a knife and I keep it above my heart for you  
Rock on  
It always sets me down  
The way you tremble when you're down  
And all the lies you tell  
Come back to haunt you baby  
Back to haunt you down  
Come back to haunt you baby  
Haunt you down  
All right  
Look Out  
I've been to Christmas in France  
I don't wanna have no pants  
I've had Christmas in France  
Where they don't wear any pants  
I've had Christmas in Detroit  
How do you think that feels?  
I've been married in Cincinnati too  
Hold Off  
All you need your fill is waiting for your man to come home  
All your deets undecided boxes  
Are coming out  
I'm coming out  
I'm hungry for you  
I can smell you on my hands  
And it smells really good  
Oh yeah  
Hold me down and love me  
Hold me down and love me  
Keep that knife above me  
I'll teach you how to look my age  
If you wanna look old  
I'll teach you how to look my age  
If you wanna look old  
I'll teach you how to look my age  
I'll teach you how to act like over age, over age
