

Platform Blues

Pavement

Cardiac kid, kinda like it
Kinda like it
Cardiac kid don't go
Chronological on all your friends

First you'll cause accidents
Raise the roof, make us tense
Follow through to the ends
And we'll rip the heart out from the defense

The lion reaps his own reward
Serengeti nightmare for the eco-tour
You're a nice guy, and I hate you for that
Thanks to people like you I'm no longer half bad

Mandrake versus the snake
I got it on the camera for posterity
But my stolen wild orchids got cut
See those sherpas chirping from the autobus

It's got the right to sit on that face
Well, it was put here for me because I am great
I've got the right to sit on that face
Everybody look at me and my wonderful place

Patty, Patty, Patty, you're so catty
And it's not fair because I like to doody doddy do
Catty, catty, catty you're so patty
And it's unfair 'cause I like to doody doddy do with you

And it's unfair 'cause I like to
Doody doddy doody da with you
Di da di doody da with you
