

## Summer Babe

### Pavement

Ice baby, I saw your girlfriend and she's  
Eating her fingers like they're just another meal  
But she waits there in the levee washes  
Mixing cocktails with a plastic-tipped cigar

My eyes stick to all the shiny robes  
You wear on the protein delta strip in an abandoned house  
But I will wait there, I'll be waiting forever  
I'm waiting, waiting, waiting, waiting, waiting, waiting, waiti  
ng, waiting

Minerals, ice deposit daily  
Drop off the first shiny robe  
I've got a lot of things I want to sell, but  
Not here, babe, Tokyo

Every time I sit around, I find I'm shot  
Every time I sit around, I find I'm shot  
Every time I turn around, my friend, every time I sit around, m  
y friend  
Every time, every time, every time, every time, every time, eve  
ry time,

You're my summer babe  
Summer babe  
Summer babe  
Summer babe
