

## Jenny

### Pavlov's Dog

Stars from the heavens fell down when she cried  
'Til all that was left here were pieces of sky  
Some tried to take her, but she's not one of those  
Oh when you're chasing rainbows, well then anything goes

Bring Jenny from Boulder, well I'm lost inside  
Tell her I need her, maybe she'll understand  
Can you tell her I love her, oh, forget everything  
I love to be near her from Autumn 'til Spring

Well my boots have been thirsty, well my eyes have been red  
For close to a year now, well I'm changing instead  
Oh some tried to please me, but they couldn't know how  
All the ways that I love her, the way I still love her now

Bring Jenny from Boulder, well I'm lost inside  
Ooh tell her I need her, maybe she'll understand  
Oh maybe maybe I love her, oh, forget everything  
I love to be near her from Autumn 'til Springtime  
Yes, over and over and over and over again
