

## Standing Here With You (Megan's Song)

Pavlov's Dog

Well I lost all I was  
And it's more than I've tried to be  
This living here with you  
And there's no one here besides me  
And it don't come easy  
And it don't come too hard  
But I always wind up  
Always standing here with you

Things just stay the same  
People just don't grow so fast  
And where once I was a child  
I've found I just can't stay like that

You say it doesn't matter  
If things just stay the same  
You say it doesn't matter  
And then maybe stay the same  
Or when  
It really doesn't matter  
If I really was to blame  
Really was to blame  
And sad that it shows
