

Oily Rags

Paw

Walkin' on eggs shells
Kickin' around in boots too big
Makin' me think it's someone else

Fuckin' with my head
Pullin' my hair out fist and pump
Think I've found the road to hell

Livin' in your dream
Enough to make a good man bad
Screamin' away from the place you live

Now that I've left you
Everything fits where it belongs
Leaving you was my best to give
