

Against The Pill

Pay money To my Pain

Can I live life without you
I can't sing this without you
This love will never hurt you
This drug that I turn into
My thirst to be with you
I'm first to admit to
If I could promises to do
I would have never use you

I'm in a narrow space
It's me I have to say
I want someone to trust me
You needed something form me

I can't wait to taste you
I can't get you out of my mind
This time I'm not going to choose you
If I could only stay true

I don't believe what you say
I don't trust you
I don't believe what you going to say
It's too late to feel

Against my will
Life in the pill
