

Bury

Pay money To my Pain

Something is changing inside of me
I need to write down before I forget
You never told me, you're alone

Fury and anger breaks me down
I'm so stuck and I can't get out
But I can only, hate you

Can't you feel me
Can't you love me
Even if you hurt me

I still remember about your scars
I could understand, stand aside

Wanted something I can't take
I'll be stronger once again
Don't worry about me trust me
Please trust me now

Now, I have to see it
This is for my love
Open this heart and my mind
Let me believe

Now, I have to listen again
This is for my love
Remember why I'm still in here
'Cause it's all for you

One more time help me sing again
You can hurt me, I'll still be the same
When it's something I can't take

I'll be stronger once again...
I need you to end my every worry
Taking time is it for...

You can hurt me down
(You can hurt me down)
I'll give you my love
You are good as you are

I will give myself for you
You can live your own life for you
It's all for you...
