

Dilemma

Pay money To my Pain

Look up to the sky
There is a start that guides me
I don't know where I'm going to
But I feel good

Listen to the voice
In the air I'm part of it
Forgive me for everything I've done
I'm so alone

Walking down the street now
Then I open my eyes to see you
I'm holding your hand never let this go
So we walk again

Stars are leading me the way
It's never gonna leave my way
Trust me I feel free tonight
We can go anywhere
Sometimes I sit across from you
That's the moment I'm in the air
This song waits for you to cross over
to me...

Do you see, the stars shine for you
It tells you which way is right
Forget your regret just for now
We don't need that

Walking down the street now
Then I open my eyes to see you
I'm holding your hand never let this go
So we walk again

Stars are leading me the way
It's never gonna leave my way
Trust me I feel free tonight
We can go anywhere
Sometimes I sit across from you
That's the moment I'm in the air
This song waits for you to cross over
to me...

Yeah

Sometimes I sit across from you
That's the moment I'm in the air
This song waits for you to cross over
to me...

Do you see, the stars shine for you
It tells you which way is right
Forget your regret just for now
We don't need that

Do you feel the sun shine for you
The moon light's sleeping now

Just close my eyes and try to feel
The world exist

Do you see, the stars shine for you
It tells you which way is right
Forget your regret just for now
We don't need that

Do you feel the sun shine for you
The moon light's sleeping now
Just close my eyes and try to feel
The world exist

Do you see, the stars shine for you
It tells you which way is right
Forget your regret just for now
We don't need that

Do you feel the sun shine for you
The moon light's sleeping now
Just close my eyes and try to feel
The world exist

Do you see, the stars shine for you
It tells you which way is right
Forget your regret just for now
We don't need that

Do you see, the stars shine for you
It tells you which way is right
Forget your regret just for now
We don't need that
