

From Here To Somewhere

Pay money To my Pain

The way you're talking
I can see you look you try to hide something from your eyes
And it's the only way to prove
Prove myself so I will sing to bring it to light

Take it from here to where
Take it from here to somewhere
Take it now I now who I am
So take it from here to somewhere

I swear no matter how they try to change myself
to make myself, I'll never choose to be
And It's the only way to prove
instead of many words of lies, your eyes
I know what I need now

Now It's time to go
I know where you're going
Let me see your pride now
It's time to be the one
There is no time to waste
I know what makes you down
If you still have your dream
You could be the one

Are you ready to go
Make my way cause I'll sing
But you never wanna talk to me again
Trip out, freak out
Why don't you come here to see me talk to me
Make it up cause I'll sing for you
But you never wanna talk to me again
Trip out, freak out
Why don't you come here to see me talk to me
