

Same As You Are

Pay money To my Pain

It's just another day
I was in the club
You were standing and your eyes were empty
That was the first time, you came into my heart

Then we spent the night
I thought just this one night
But you left something that I've never had in my life
Maybe that's why I'm crying
I never had this feeling in my life

When I see your eyes
Your eyes are telling me like
Nobody else helps me out of here
So I hold my breath
Cuz I know you dont expect someones help

I'm just a guy, but I think I'll make you smile
So please don't say: 'Nobody helps me out!'
I'll be the one so dont be afraid

I will make you smile
I don't wanna see you cry
Let me feel your arms around me
I don't want you to think you're alone
Just keep me going on, you keep me going on

It's just another day
I was in the the club
You were standing and your eyes were empty
That was the first time, you came into my heart
I tried to forget you
Your memory wont leave me
I feel you always somewhere inside of me
I can't get you out of my mind
I know I'm in love

I will make you smile
I don't wanna see you cry
Let me feel your arms around me
I don't want you to think you're alone
You just keep me going on

You can trust me girl
I promise I love you
I am missing you
I've never feel this way
I won't let you go, so don't go anywhere
Here I am for you
As long as you think you wanna be with me

I will make you smile
I don't wanna see you cry
Let me feel your arms around me
I don't want you to think you're alone
You just keep me going on

I will make you smile
I don't wanna see you cry
Let me feel your arms around me
I don't want you to think you're alone
You just keep me going on
(You just keep me going on)

I know why you're angry about
Cuz I that was used to be
That's how I used to be
You made me forget myself
I know why you're angry about
Cuz that was I used to be
That's how I used to be
Cuz that how I used to be
That's how I used to be
