

## Follow Baby

Peace

I'm scared to death and maybe  
A faithless bribe could save me  
A touch, a bruise too easy  
She stole the seeds to see me

Her hair it bleeds and bleeds for you  
As blood runs east  
She'd lay the fees  
And offers please, she offers

Follow baby, we're going to live forever baby  
Follow baby, we'll go deep, deep, deep, deep

She's scared to see, so humble  
No food to eat, we follow  
But after sleep we're into  
The forest field, she said

Follow baby, we're going to live forever baby  
Follow baby, we'll go deep, deep, deep, deep
