All Night

Pearl Jam

Got all night
Plenty of time
Take these chains
From my eyes

So alive
Gettin 'it prime
Take 'em there
Before you die

Why be satisfied We've got all night Please be here Top of the stairs

No place for The president Build some fears Left outside

Fuck, be content To just get by Why be satisfied We've got all night

You scream and wail You see who cares Scream and wail See who cares

Life has nothin' to do with Killin' time
So why be satisfied
We've got... all night

We've got all night We've got all night...
