

## All Those Yesterdays

Pearl Jam

Don't you think you oughtta rest?  
Don't you think you oughtta lay your head down?  
Don't you think you want to sleep?  
Don't you think you oughtta lay your head down?  
Tonight

Don't you think you've done enough?  
Don't you think you've got enough? Well maybe  
You don't think there's time to stop  
Time enough for you to lay your head down  
Tonight

Let it wash away  
All those yesterdays  
What are you running from?  
Taking pills to get along  
Creating walls to call your own  
So no one catches you?  
Drifing off and doing all the things  
That we all do  
Let them wash away  
All those yesterdays  
All those ...  
You got time...  
You got time to escape  
There still time...  
It's no crime to escape  
There still time to escape  
It's no crime to escape  
All those yesterdays.
