

In Hiding

Pearl Jam

1. I shut and locked the front door

No way in or out

I turned and walked the hallway

And pulled the curtains down

I knelt and emptied the mouth of every club around

2. I'd stay but my last cab left me

Ignored all my rounds

Soon I was seeing visions and cracks along the walls

They were upside down

R: I swallow my words to keep from lying

I swallow my face just to keep from biting, I, I..

I swallowed my breath and went deep, I was diving, diving

I surfaced when all of my pen wasn't writing

I'm in hiding

3. It's been about three days now

Since I've been aground

No longer overwhelmed and it seems so simple now

It's funny when things change so much

It's all state of mind

R: I swallowed my words to keep from lying

I swallowed my face just to keep from biting I, I

I swallowed my breath and went deep, I was diving, I was diving

I surfaced and all around me was enlightened

Now I'm in hiding
