

# The End

Pearl Jam

What were all those dreams we shared  
Those many years ago?  
What were all those plans we made now  
Left beside the road?  
Behind us in the road

More than friends, I always pledged  
Cause friends they come and go  
People change, as does everything  
I wanted to grow old  
I just want to grow old

Slide up next to me  
I'm just a human being  
I will take the blame  
But just the same  
This is not me

You see?  
Believe

I'm better than this  
Don't leave me so cold  
I'm buried beneath the stones  
I just want to hold on  
I know I'm worth your love

Enough  
I don't think  
There's such a thing

It's my fault now  
Having caught a sickness in my bones  
How it pains to leave you here  
With the kids on your own  
Just don't let me go

Help me see myself  
Cause I can no longer tell  
Looking out from the inside  
Of the bottom of a well

It's hell  
I yell

But no one hears before I disappear  
Whisper in my ear  
Give me something to echo  
In my unknown future's ear

My dear  
The end  
Comes near  
I'm here  
But not much longer.
