Pearl Jam

I got a car  
I got some gas  
Let's get the fuck out of here  
Get out of here fast  
Oh, everyone's confused  
So I stay in my room  
I want to go,  
But i don't want to go alone

I hope you get this message  
But your not home  
Oh i could pick you up  
In 18 minutes or so  
We could cross the bridge  
We could play some tunes  
I wanna go  
But i don't want to go alone  
With you i could never be alone

Oh please say  
That you didn't already leave today  
Oh it would hurt me so  
If i couldn't go  
I'll carry on  
I've still got this song  
Where ever you are know that  
With you i go  
I'll always be there in your soul.
