

Whipping

Pearl Jam

Don't need a helmet got a hard hard head
Don't need a raincoat I'm already wet
Don't need a bandage there's too much blood
After a while seems to roll right off hmm

Whipping ah they're whipping ah
They're whipping ah they're whipping

Don't need a hand there's always arms attached
Oh don't get behind I can't fall back
Why must we trust all these rusted rails?
They don't want no change, we already have

They're whipping, ah they're whipping, ah
They're whipping, ah they're whipping

Don't mean to push, but I'm being shoved!
Oh, I'm just like you, think we've had enough
I can't believe a thing they want us to oh
Oh, we all got scars, they should have 'em too

Oh, they're whipping, ah they're whipping, ah
They're whipping, ah they're whipping
They're whipping, ah they're whipping, ah
They're whipping yeah they're whipping
