Whipping

Pearl Jam

Don't need a helmet got a hard hard head Don't need a raincoat I'm already wet Don't need a bandage there's too much blood After a while seems to roll right off hmm

Whipping ah they're whipping ah They're whipping ah they're whipping

Don't need a hand there's always arms attached Oh don't get behind I can't fall back Why must we trust all these rusted rails? They don't want no change, we already have

They're whipping, ah they're whipping, ah They're whipping, ah they're whipping

Don't mean to push, but I'm being shoved!

Oh, I'm just like you, think we've had enough
I can't believe a thing they want us to oh

Oh, we all got scars, they should have 'em too

Oh, they're whipping, ah they're whipping, ah They're whipping, ah they're whipping
They're whipping, ah they're whipping, ah
They're whipping yeah they're whipping
