

Stay With Me

Pebbles

Waited so long
Now I found the perfect one
I was alone but now I'm having so much fun

So stay with me forever
I will never let you down
If we stay together
My love will always be around

Now I can see
Just how special love can be
Please take my hand (oh babe)
Together we'll make history

I'd give my heart and my soul
I promise not to let go (oh no no)
And if there's one thing I know
Is boy I'll fight for you I'll die for you
And I'll always love you so

I'd give my heart and my soul
I promise not to let go (oh no no)
And if there's one thing I know
Is boy I'll fight for you I'll die for you
And I'll always love you so

(Stay with me don't ever leave
You're the only one I'll ever need
Stay with me oh baby please)

Stay with me
I know boy oh no

Stay with me forever (Stay with me forever)
I will never let you down (I will never let you down)
If we stay together
My love will always be around

Stay with me
Can't you see
The love when we're together
Darling is
You and me
And I will leave you never, no
