

# Blood red Skies

Peccatum

As the sun goes down, I move around  
Keeping to the shadows  
Life, hangs by a thread  
And I've heard it said, that I'll not see tomorrow

If that's my destiny, it'll have to be  
So I'll face the future  
Running out of time  
I'm on the line  
But I'll go down fighting

Felt the hand of justice  
Telling wrong from right  
Threw me out upon the street in the middle of the night

Cybernetic heartbeat  
Digital precise  
Pneumatic fingers nearly had me in their vice

Not begging you  
I'm telling you

You won't break me  
You won't make me  
You won't take me,  
Under blood red skies

You won't break me  
You won't take me  
I'll fight you under  
blood red skies

Through a shattered city, watched by laser eyes  
Overhead the night squad glides  
The decaying paradise

Automatic sniper  
With computer sights  
Scans the bleak horizon for its victim of the night

They're closing in  
They'll never win

You won't break me  
You won't take me  
You won't make me,  
Under blood red skies

You won't break me  
You won't take me  
I'll fight you under  
blood red skies

As the end is drawing near  
Standing proud, I won't give in to fear  
As I die a legend will be born  
I will stand, I will fight

You'll never take me alive  
I'll stand my ground  
I won't go down

You won't break me  
You won't make me  
You won't take me,  
Under blood red skies

You won't break me  
You won't take me  
just I'll face you under  
blood red skies

You'll never take me alive  
I'm telling you  
Hands of justice  
I will stand, I will fight  
Never surrender  
As the sun goes down  
I won't give in to fear
