

A Simple Plan

Pedro the Lion

the plants and the factories are perfectly run
the workers and bosses are living as one
people are equal people are good
people are working as hard as they should be
it's food for my family and clothes for my kids
the class war is over and everyone wins
it's such a simple plan
to take it like a man
but i'm not sure i can
we fought for a decade corruption and greed
it gave me a purpose a reason to breathe
but now that it's over now that we've won
it's back to my bedroom alone with a shot gun
to think of my family no longer compels me
with all things in common they'll manage without me
