A Simple Plan

Pedro the Lion

the plants and the factories are perfectly run the workers and bosses are living as one people are equal people are good people are working as hard as they should be it's food for my family and clothes for my kids the class war is over and everyone wins it's such a simple plan to take it like a man but i'm not sure i can we fought for a decade corruption and greed it gave me a purpose a reason to breathe but now that it's over now that we've won it's back to my bedroom alone with a shot gun to think of my family no longer compels me with all things in common they'll manage without me
