## **Easy Does It**

## Peggy Lee

You said you needed love to warm you in the night So you gave yourself to strangers, who left you crying at first light

You think the world you live in doesn't notice you But don't you worry, baby, I'll be there to comfort you

So take it easy, easy Easy does it, baby, nice and slow, I'll take you anywhere the f our winds blow

So weep no more, my lady, don't you cry I can't paint your portrait with those tears in your eye

But I can give you love, every night and day An' we will walk together, the sun and moon will light our way

So take it easy, easy Easy does it, baby, nice and slow, I'll take you anywhere the f our winds blow

I'll tell you something you'll understand Grab a hold now, baby, and I'll lead you to the promised land

I'll make you feel so good, make you feel alright Chase away the shadows and keep you warm at night, ooh, I'll ke ep you warm

Take it easy, easy Easy does it, baby, nice and slow, I'll take you anywhere the f our winds blow

Gonna keep you smiling and satisfied Nothing but blue skies on a magic carpet ride

Take it easy, easy Easy does it, baby, nice and slow, I'll take you anywhere the f our winds blow

Anywhere the four winds blow, I'll take you there

Here we go, baby, hold on

No more worry, no more pain The sun is always shining, and it never, ever rains, and it nev er, ever rains And it never, ever rains Sponzor: www.srovnavac.cz-šetříme na pojištění!
