

## Higher Circles

Pendragon

When there's something where you've gotta take your part  
You've gotta feel it, gotta feel it from the start  
Just to be in touch, the gift of luck  
To be in higher circles will take you by the hand, a friend, a  
gift, a stand

Chorus:

I take it from the diamond proof  
I shout it from the highest roof  
My heart's a Romeo  
Feels the safest place to go

When your mega chance is sitting on the ground  
You pick it up, you give it life, you give it sound  
Just to keep the band in higher circles  
The chance will take you hand in hand  
Together we must stand

[chorus]

Do you ever find you're left behind?  
I'll fill the gap, I like the crack, it's all mine  
Will you lead me by the hand, a friend a gift, a stand

[chorus]
