Higher Circles

Pendragon

When there's something where you've gotta take your part You've gotta feel it, gotta feel it from the start Just to be in touch, the gift of luck To be in higher circles will take you by the hand, a friend, a gift, a stand

Chorus:

I take if from the diamond proof I shout it from the highest roof My heart's a Romeo Feels the safest place to go

When your mega chance is sitting on the ground You pick it up, you give it life, you give it sound Just to keep the band in higher circles The chance will take you hand in hand Together we must stand

[chorus]

Do you ever find you're left behind? I'll fill the gap, I like the crack, it's all mine Will you lead my by the hand, a friend a gift, a stand

[chorus]
