

The Freak Show

Pendragon

I was flicking through my Bowie LP's thinking Ziggy saved my life
Than i touched my hand and started to think about my california wife
I wanna live in some imaginary bubble
Stay in bed all day Avoiding any trouble
Don't want people to see the freak show going on inside on me
Don't want people to see the freak show going on inside on me
I was Throwing stones at the waves that day
Surf music blows through my hair
Than I started to think about getting a job
and how much that I really didn't care
It's not as if I deserve a free ride
Quite the opposite in fact
It's just that I want to be true to myself
And keep my dream intact
Don't want people to see the freak show going on inside on me
Don't want people to see the freak show going on inside on me
