

# Self vs Self

Pendulum

If I struggle a lifetime  
What would my body be?  
An empty shell  
On what a demon fed!

Could be a heavy burden  
To stay true to your words!  
Speak up!  
I wanna silence everything!

If I got no plan  
Doesn't mean that I get what I want for free.  
If I got no meaning,  
Would you force me to a place where I make sense,  
'Cause nothing lasts forever...

How do I get home?  
Everything revolves around me!  
If I can't find myself?  
It's so completely fake!

How do I get home?  
Everything revolves around me!  
If even you can't help?  
Dark nights on my soul!

I deny failure!  
I ignite!  
Woe is on my misery,  
She wins all their eyes!

Realize what defies our fate!  
This is not me, this is me!  
So if I struggle a lifetime  
What good would that do?

If I got a plan  
Doesn't have to stop the feeling inside.  
If I do make sense,  
Would you drag me down,  
'Cause nothing lasts forever...

How do I get home?  
Everything revolves around me!  
If I can't find myself?  
It's so completely fake!

How do I get home?  
Everything revolves around me!  
If even you can't help?  
Dark nights on my soul!
