If I struggle a lifetime What would my body be? An empty shell
On what a demon fed!

Could be a heavy burden
To stay true to your words!
Speak up!
I wanna silence everything!

If I got no plan
Doesn't mean that I get what I want for free.

If I got no meaning,
Would you force me to a place where I make sense,
'Cause nothing lasts forever...

How do I get home? Everything revolves around me! If I can't find myself? It's so completely fake!

How do I get home? Everything revolves around me! If even you can't help? Dark nights on my soul!

I deny failure!
I ignite!
Woe is on my misery,
She wins all their eyes!

Realize what defies our fate! This is not me, this is me! So if I struggle a lifetime What good would that do?

If I got a plan
Doesn't have to stop the feeling inside.
If I do make sense,
Would you drag me down,
'Cause nothing lasts forever...

How do I get home?
Everything revolves around me!
If I can't find myself?
It's so completely fake!

How do I get home? Everything revolves around me! If even you can't help? Dark nights on my soul!
