

# Silent Community

## Penetration

There's a lot of freedom  
But not enough choice  
Habits never change  
And there's only one voice  
Fifty odds under 25's  
Are past the caring age  
What will have to happen  
Before the place can change

Nothing to do  
And nothing to say  
The silent community  
Is here to stay  
Opinions exhausted  
But healthy and needed  
Wake up to the future  
You can't over look it

Frightened to speak  
Yeah, freedom of speech  
Means nothing to most  
And trouble if you preach it  
Punished for speaking  
And praised for the silence  
Pent up emotion  
Or modern day violence

Nothing to do etc

Solo

Shout if you want to  
Fight if you need to  
Hesitations surging into view  
Secret societies encouraged but untrue  
Just say something  
We all want to hear you

Nothing to do etc
